

How Did I Get Here?

On the first day of camp, Bob was hiking through the woods with some of the other campers. He decided to walk ahead of his friends to see if the trail was safe. Suddenly, the pile of sticks Bob was climbing over cracked under him! Before he could say a word, he fell into a deep pit! Could this be a trap set by the mean girls? After a while, the rest of the unsuspecting boys came searching for Bob. They didn't see the opening to the pit in the path! Crash! All three campers fell inside. "How did we get here?" exclaimed the youngest boy. Bob sighed. They did not know how to get out!

Stories are fun, but did you know that throughout this world, millions of kids and adults are seriously wondering how we got here? They have no idea what the truth is. If someone were to ask you how you came into existence, what would you say? Scientists have tried to find an answer as to where we came from by saying that we evolved over a long period of millions of years. **Some even say that we evolved from monkeys! Yuck!!!**

SEARCH IT!

The Bible, God's special letter to us, states that the world had to be created. "Create" means to make something out of nothing. Only God can do that! In Genesis chapter one, the Bible explains that in six literal, 24 hour days, God created all living things.

In the beginning, who created the heavens and the earth? (Read Genesis 1:1)

- A. Evolution B. Scientists C. Nobody D. God

How does God describe what He made (Genesis 1:31)?

- A. Very good B. Very sinful C. Ugly D. Unfinished

What does “create” mean?

- A. To buy materials and make something
B. To make something out of nothing
C. To make something over a long period of millions of years

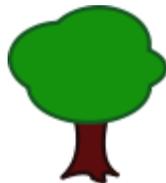

According to the Bible, every living thing was made by God. He made you exactly the way He wanted. The Bible even tells us in Psalm 139 that God knows everything about you. He knows how many hairs are on your head! He knows your thoughts, feelings, and sins. God spoke and the world was made, but He formed mankind with His own hands, showing just how much He loves people.

Some living things were made without God creating them

(John 1:3, Revelation 4:11). (Circle your answer.) True False

Put an X on the thing(s) God did not create.

What does Genesis 2:7 say that God used to form man?

- A. Nothing, we just appeared
B. The dust He created
C. The monkey's He created
D. None of the above

What was God's purpose for making humans? (Read Psalm 102:18, Isaiah 43:7, Psalm 97:6, and Psalm 29:2)

- A. To do as many works (good things) as we can
- B. To let us live life the way we want to live it
- C. To know and glorify (lift up or praise) Him

If a person goes to court, they appear before a judge and have to give an answer to him. **Because God created you, He expects you to be responsible to Him for how you live.** Someday, believers will stand before God to answer to Him for how they live their lives. What we do now will determine what rewards we earn in Heaven.

Unbelievers will have to answer to God, too... The Bible says the “books will be opened.” God records every sin the unbeliever commits. They will have to give an answer for why they said no to God, and then be cast into a place called hell forever. Once a person dies, it is too late to accept Jesus as Savior.

What or who does Romans 1:25 say people worship instead of the creator?

- A. Stuffed animals
- B. The creature
- C. God
- D. Science

God wants you to take care of what He has created. We can do that in many ways. We can keep our bodies clean, strong, and healthy. We can take care of our plants and animals the right way. We can pick up the trash we see outside. We can thank God for the things He has made, and so much more.

What is one way that you will show God you are thankful that He created you?

BRAIN STUMPER!

Which two planets rotate in a different direction than the rest?

(Evolutionists don't have a logical answer as to how this is possible. They have theories (guesses), but no evidence. Some think it was caused by large asteroids hitting the planets, changing their direction...but anything large enough to do that would have caused significant damage to their surfaces. Evolutionists do not like to accept the fact that because God created the planets, He could make them spin in whatever direction He wanted!)

Answer (written backwards): sunarU/suneV

TRY IT!

Leave a ripe banana in a sealed bag for several weeks (Be sure to ask permission first!) Does the banana get better or worse over time?

Evolutionists try to get people to believe that living things change for the better the longer they exist...but they have no real proof! They were not around when they say the things "evolved." The Bible offers us proof that God created the world in Genesis! Titus 1:2 says that God cannot lie. Think about it!
